You're Going to Like This Story

Have you ever dreamed about a new car? "**The** new car?" If so, you know exactly how all of us at TrippNT feel about carts.

At TrippNT, we dream about carts. We have cart fever. We are cart enthusiasts. We talk carts, design carts, drive carts and build carts. We LOVE carts. TrippNT carts are unique, strong, reliable and available at a price you can afford.

TrippNT's obsession with creating unique, confidence-building, corrosion resistant carts began 21 years ago. With that much experience, you can rest assured we are good at it. We are so sure you will want one of our carts that we offer a 100% full replacement, Lifetime Guarantee on every single one. That's right, forever. They are built to last. We know that although you may love your TrippNT cart, it may be abused. Well, that's ok. You go right ahead. They are built to take the punishment.

February of 2015 introduces our newest, most versatile cart line: Element. Designed for true flexibility, these carts can be endlessly accessorized with glove box dispensers, trash cans, tool holders, power strips, key board shelves, document holders, bottle holders or extra shelves. It's your dream cart.

Enjoy a thorough look at this new cart catalog and get some extra useful space and storage for your work area.

Your friend in the cart business,

Sue Tripp
President

Customer Review: ★★★★★

"It fits nicely under a workbench, we lock one wheel and it is still mobile enough when we need to move it, while it doesn't roll downhill when we don't want it to."

- Timothy G. Royal Oak, MI

What Users Are Saying:

“Really does save space. This cart was one of the smallest carts we found that would fit in our space. It was a great value for comparable carts. My favorite feature is that it is very washable.”

- Cathy M. Oakdale, CA

EXTRA WIDE LAB CART

Review from an End User:

"Love the mobility and ease of use! This cart saves me a lot of valuable time, not having to run back and forth to other labs. The cart also stands up to all the solvents we use in the lab, it does not stain at all."

- Mary R. Batesville, AR
